Contents

- Brief on the history of CMA-GAW network
- The role of CAWAS in CMA-GAW network
- Current status of China GHG monitoring network

中国气象局气象探测中心
CMA Meteorological Observation Centre

The history of CMA-GAW network

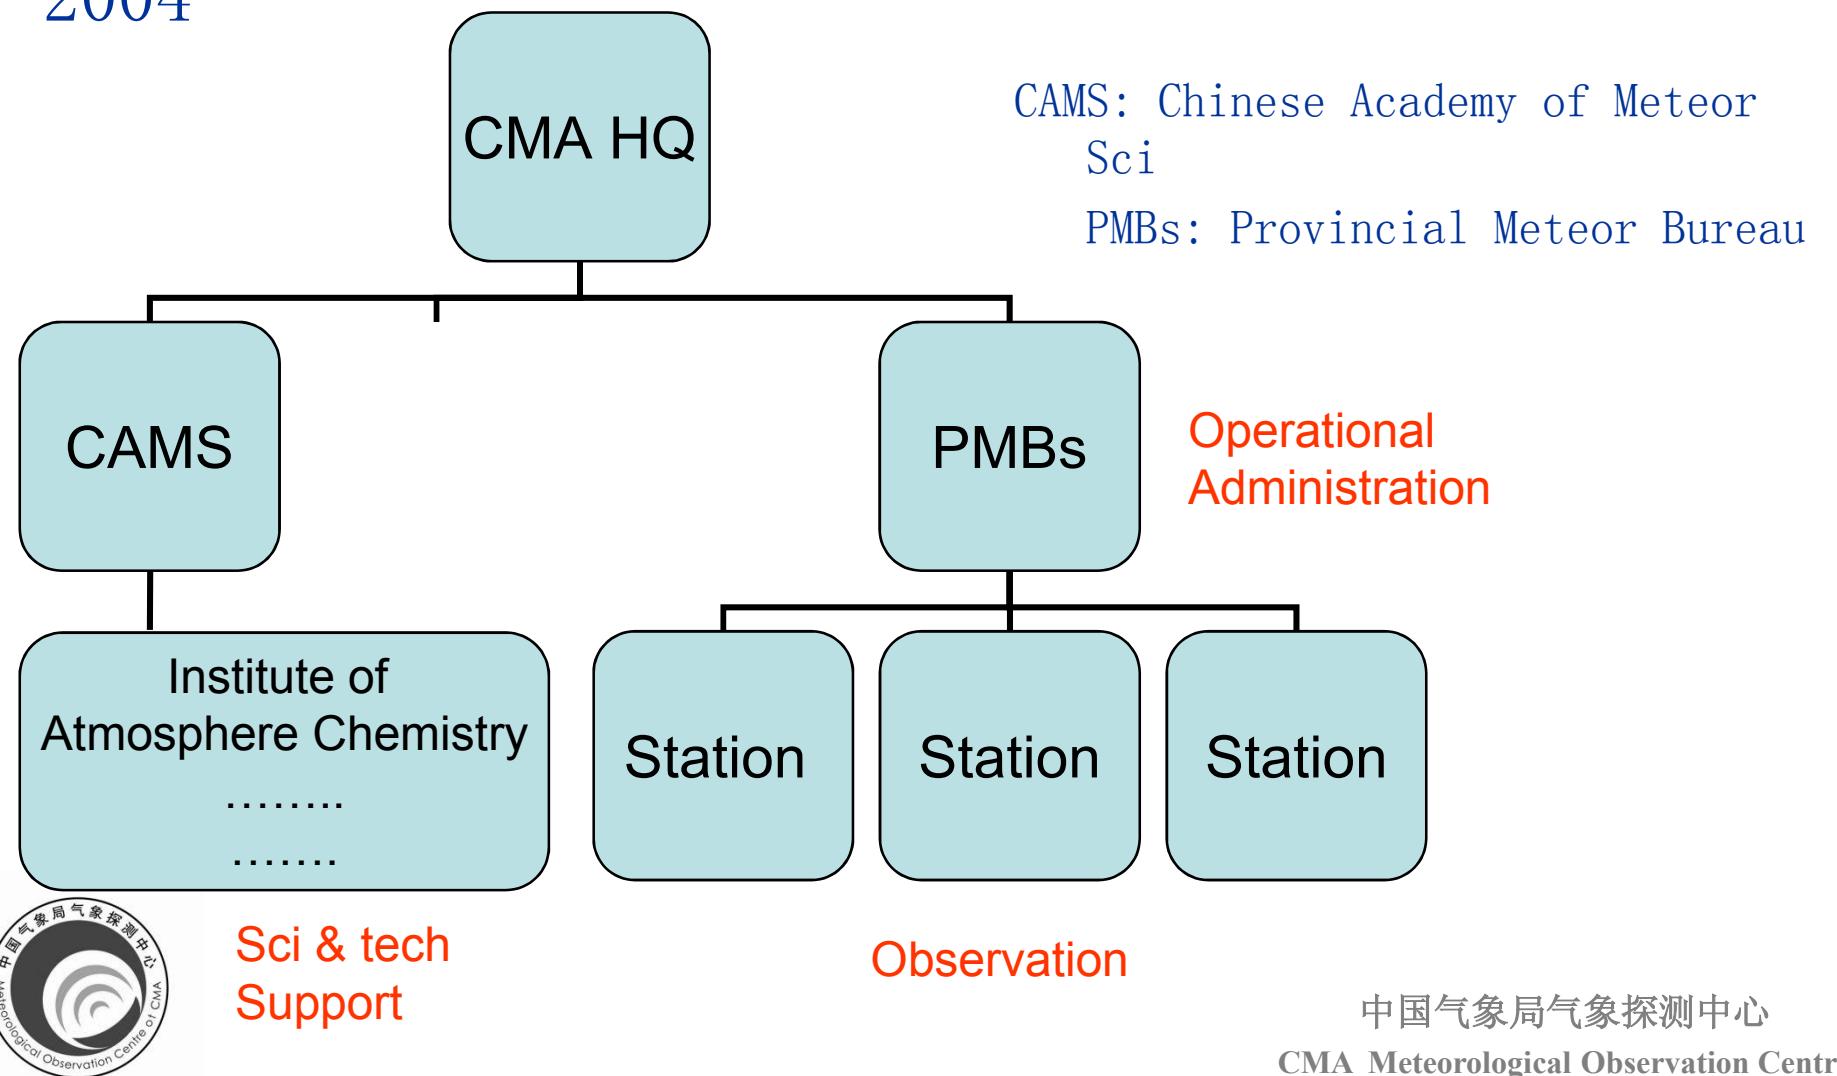

- 1) Greenhouse gases
- 2) Aerosols(Chemistry, optical property, etc)
- 3) Reactive gases(SO₂, NO_x, CO, O₃, etc)
- 4) Total Ozone / Solar Radiation
- 5) Precipitation chemistry
- 6) Meteorological

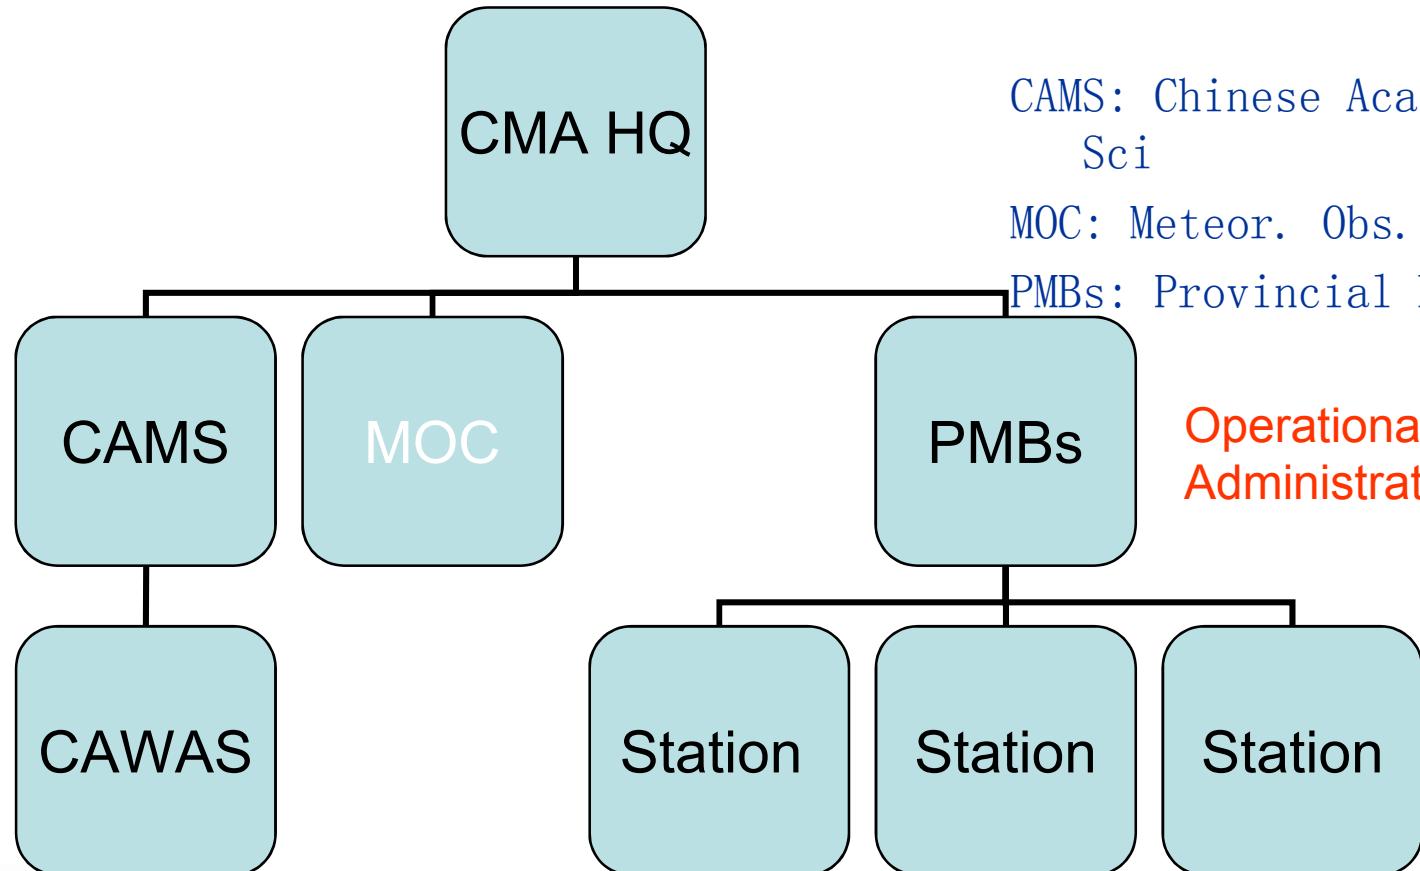

The role of CAWAS

- Before the DEC.
2004

The role of CAWAS

- Since 2005

CAMS: Chinese Academy of Meteor
Sci

MOC: Meteor. Obs. Center of CMA

PMBs: Provincial Meteor Bureau
